time to complete this practice set is 15 16 hours

from francis al[]s and ursula biemann to vivan sundaram allora calzadilla and the center for urban
pedagogy some of the most compelling artists today are engaging with the politics of land use
including the growth of the global economy climate change sustainability occupy movements and the
privatization of public space their work pivots around a set of evolving questions in what ways is land
formed over the course of geological time also contemporary and formed by the conditions of the
present how might art contribute to the expansion of spatial and environmental justice editors emily
eliza scott and kirsten swenson bring together a range of international voices and artworks to
illuminate this critical mass of practices one of the first comprehensive treatments of land use in
contemporary art critical landscapes skillfully surveys the stakes and concerns of recent land based

practices outlining the art historical contexts methodological strategies and geopolitical phenomena this cross disciplinary collection is destined to be an essential reference not only within the fields of art and art history but also across those of cultural geography architecture and urban planning environmental history and landscape studies

landscape studies provide a crucial perspective into the interaction between humans and their environment shedding insight on social cultural and economic topics the research explores both the way that natural processes have affected the development of culture and society as well as the ways that natural landscapes themselves are the product of historical and cultural processes most previous studies of the landscape selectively focused on either the natural sciences or the social sciences but the research presented in african landscapes bridges that gap this work is unique in its interdisciplinary scope over the past twelve years the contributors to this volume have participated in the collaborative research center acacia arid climate adaptation and cultural innovation in africa which deals with the relationship between cultural processes and ecological dynamics in africa s arid areas the case studies presented here come from mainly sahara sahel and southwestern africa and are all linked to broader discussions on the concept of landscape and themes of cultural anthropological geographical botanical sociological and archaeological interest the contributions in this work are enhanced by full color photographs that put the discussion in context visually

as an international ecotourism destination yosemite national park welcomes millions of climbers sightseers and other visitors from around the world annually all of whom are afforded dramatic experiences of the natural world this original and cross disciplinary book offers an ethnographic and performative study of yosemite visitors in order to understand human connection with and within

natural landscapes by grounding a novel eco semiotic analysis in the lived reality of parkgoers it forges surprising connections assembling a collective account that will be of interest to disciplines ranging from performance studies to cultural geography

this book includes revised dissertation chapters from the author s second phd which was awarded in 2020 by murdoch university australia it also includes three chapters summarising recent developments this was an innovative transdisciplinary research project using phenomenology as the over arching meta paradigm the investigation involved collaborations and literature reviews across numerous disciplines including philosophy geography ethnoecology sociology and cultural studies the book discusses three landscape language ethnophysiography case studies with indigenous peoples in australia and the usa it features a detailed discussion of transdisciplinarity and provides a comprehensive example of how this approach can be applied to complex dwelling relationships which people from different cultures have with specific topographic environments turning terrain into landscape it involves using phenomenology as a transdisciplinary meta paradigm and describes phenomenological methods for integrating physical and social sciences including an analysis of the worldviews of indigenous peoples for example manyjilyjarra jukurrpa as heideggerian topology
